DISCUSSION

The report is in compliance with the 2008 Los Angeles City Building Code.

The approval is based on tests in accordance to ASTM E-331 and Section 4.1.2 of AC38, dated June 2004.

This general approval of an equivalent alternate to the Code is only valid where an engineer and/or inspector of this Department has determined that all conditions of this approval have been met in the project in which it is to be used.

This general approval will remain effective provided the Evaluation Report is maintained valid and unrevised with the issuing organization. Any revision to the report must be submitted to this Department, with appropriate fee, for review in order to continue the approval of the revised report.

Addressee to whom this Research Report is issued is responsible for providing copies of it, complete with any attachments indicated, to architects, engineers and builders using items approved herein in design to construction which must be approved by Department of Building and Safety Engineers and Inspectors.
